

MASSIVE SPLASH – a new innovation from Water Odyssey

Patent Pending

- Urban, architectural feel and design
- Modularity allows for different configurations depending on budgets and size of pad
- Four different splash effects reduces wait time
- Promotes children to move chasing water (random splash) & fights against childhood obesity and diabetes
- Draws attention to park through constant motion of buckets
- Children can't throw rocks or debris into open bucket
- Birds can't use our buckets as a bird bath
- Water spray activities will come off uprights for constant cooling and a gathering place
